

### Reciprocating Internal Combustion Engine (RICE) Data Sheet

**Directions:** Print and fill out this form for each reciprocating internal combustion engine at your site(s).

Engine Name/Designation	
Horsepower	
Electrical Output (kW)	
Displacement (liters/cylinder)	
Engine Tier (if known)	
Date of Manufacture (from nameplate)	
Date Installed at Site	
If the engine was manufactured after 2007, is it a certified engine?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable
Engine Type	<input type="checkbox"/> Compression ignition <input type="checkbox"/> Spark ignition: <input type="checkbox"/> 2-stroke lean burn <input type="checkbox"/> 4-stroke lean burn <input type="checkbox"/> 4-stroke rich burn
Fuels Engine is Capable of Using	<input type="checkbox"/> Natural gas <input type="checkbox"/> Diesel <input type="checkbox"/> Biogas <input type="checkbox"/> Gasoline <input type="checkbox"/> Propane <input type="checkbox"/> Other(s): _____
Engine Use	<input type="checkbox"/> Site emergencies <input type="checkbox"/> Supply power to electric grid in <i>emergency</i> situations (emergency demand response) <input type="checkbox"/> Supply power to electric grid in <i>non-emergency</i> situations (peak shaving) <input type="checkbox"/> Other financial agreement(s) <input type="checkbox"/> Other(s): _____
