Executive Summary

1. Project Overview and Regulatory Review Process

1.1 Project Application

1.1.1 Project Description in brief

1.1.1.1 Larger project scale

1.1.1.2 WI portions

1.1.2 Project ownership, costs and funding

1.2 Authorities and Approvals for Larger Project

1.3 Authorities and Approvals for Wisconsin Portion

1.3.1 WDNR

1.3.2 PSCW

1.3.3 WDATCP

1.3.4 WDOT

1.3.5 WHS

1.3.6 Federal Agencies

1.3.7 County and Local Government Interests

2. Purpose and Necessity of Proposed Project (per the application)

3. Project Alternatives

3.1 System alternatives

3.1.1 No action

3.1.2 Expansion of existing pipeline systems

- 3.1.3 Construction of other new pipeline systems
- 3.1.4 Trucking
- 3.1.5 Railroad
- 3.1.6 Barge
- 3.2 Sandpiper pipeline alternatives
 - 3.2.1 Route variations
 - 3.2.2 Construction methods
 - 3.2.3 No action
- 3.3 Line 3 Maintenance project alternatives
 - 3.3.1 No action
 - 3.3.2 Leave in place
 - 3.3.3 Remove old
 - 3.3.4 Repair portions
- 4. Engineering and Construction Practices for Petroleum Pipelines
 - 4.1 Physical Pipeline Characteristics
 - 4.2 Right-of-way Requirements
 - 4.3 Staging Areas
 - 4.4 Construction Phases
 - 4.5 Construction Methods for Crossing Sensitive Resources or Human-made features
 - 4.6 Pipeline Right-of-way restoration and maintenance
- 5. Assessing the Impacts of Petroleum Pipeline Construction and Operation
 - 5.1 General discussion of environmental impacts
 - 5.2 General discussion of mitigation for potential environmental impacts
 - 5.3 General Impacts of Pipeline construction
 - 5.3.1 Aesthetics
 - 5.3.2 Air quality
 - 5.3.3 Agricultural
 - 5.3.4 Archeological and historical resources
 - 5.3.5 Cultural resources
 - 5.3.6 Endangered/threatened and protected species
 - 5.3.7 Rare species and communities

- 5.3.8 Ecological Landscapes and ecologically significant areas
 - 5.3.9 Forests and other woodland resources
 - 5.3.10 Invasive species
 - 5.3.11 Noise
 - 5.3.12 Property owner issues
 - 5.3.13 Recreation areas
 - 5.3.14 Safety
 - 5.3.15 Water resources
 - 5.3.16 Wetlands
6. Environmental Analysis of the Route Alternatives
- 6.1 overview of the area
 - 6.2 detailed description of the proposed project
 - 6.3 Existing Environment and Impacts
 - 6.3.1 Aesthetics
 - 6.3.2 Air quality
 - 6.3.3 Agricultural
 - 6.3.4 Archeological and historical resources
 - 6.3.5 Cultural resources
 - 6.3.6 Endangered/threatened and protected species
 - 6.3.7 Rare species and communities
 - 6.3.8 Ecological Landscapes and ecologically significant areas
 - 6.3.9 Forests and other woodland resources
 - 6.3.10 Invasive species
 - 6.3.11 Noise
 - 6.3.12 Property owner issues
 - 6.3.13 Recreation areas
 - 6.3.14 Safety
 - 6.3.15 Water resources
 - 6.3.16 Wetlands
7. Secondary and Cumulative Impacts
- 7.1 Enbridge pipeline and terminal system history

- 7.1.1 Context of this project to Enbridge system
- 7.1.2 Enbridge Incidents and spills
- 7.1.3 Concerns about type of product and pipeline safety
- 7.1.4 Future Enbridge projects
- 7.2 Other Petroleum Pipelines in WI
- 7.3 Calumet/Elkhorn Terminal proposal
- 7.4 Shipping of Oil in Great Lakes Region
- 7.5 Other major projects in Superior region
- 7.6 Climate concerns

DRAFT
