

**SOLID WASTE AND/OR RECYCLABLES  
TRANSPORTER LICENSE INFORMATION AND  
APPLICATION PACKAGE**

Dear Solid Waste and/or Recyclables Transporter Applicant:

Thank you for your interest in becoming a licensed solid waste and/or recyclables transporter in Wisconsin.

This is an annual license with the license period beginning on October 1 and expiring on September 30. The annual license fee with one vehicle is \$110. Increase this amount by \$33 for each additional vehicle that will be used under this license. For example, for an operation with 2 vehicles, the annual fee is \$143; for 3 vehicles the fee is \$176; for 4 vehicles the fee is \$209 and so on. This fee cannot be prorated.

Section NR 502.06, Wis. Adm. Code (available on the website) gives more detailed information regarding the regulations which apply to a licensed solid waste and/or recyclables transporter in Wisconsin.

Please complete the Solid Waste Transportation License Application Form 4400-179 which includes a vehicle description sheet and submit it, along with the appropriate fee (make checks payable to the Department of Natural Resources) to the appropriate [regional environmental program associate](#). To determine the correct regional office to send your application materials to, please choose the region that includes the county where your vehicle(s) are stored. If your facility is located out of state, return your application materials to the regional office in which the majority of your service will be provided, or the region that will be your point of entry to the State of Wisconsin.

This license must be renewed each year to remain current. You will receive a renewal application each May and a fee statement each June.

If you have any questions as you complete the application, please contact your regional environmental program associate.

Thank you.
